

## Teen Driving Facts!

- ▶ *Teens face the greatest risk of crashing during their first year of driving. One out of every five licensed 16-year-olds will be in a vehicle crash.*
- ▶ *Nearly half of all fatal car crashes involving teen drivers are single-car crashes. Drivers (ages 16-21) accounted for over 1/3rd of all Pennsylvania's single vehicle run-off-the-road type crashes in 2009. Teens are more likely than any other age group to be involved in a single-car crash.*
- ▶ *The accident rate among teen drivers doubles when the number of passengers in the car increases from two to three.*
- ▶ *An estimated 6% of car accidents are directly related to the use of cell phones while driving each year. The risk of getting in a wreck quadruples when drivers are talking on the phone.*
- ▶ *The total reported vehicle crashes in Pennsylvania was 124,092 in 2012. 1,310 resulted in death. This equals a death to crash ratio of 1 in 94. The average economic loss is \$6,258,621. The estimated economic lifetime cost resulting from these 1,310 deaths is a staggering \$8,198,793,104!*
- ▶ *In 2012, the economic loss due to traffic crashes was \$1,164.00 to every man, woman, and child in Pennsylvania.*
- ▶ *In 2012, pennsylvania drivers ages 16-20 were involved in 25,766 crashes. Of the reported crashes, 15,227 were male drivers and 10,539 were female drivers.*
- ▶ *In 2012, drivers (ages 16-21) accounted for 40.1% of all single vehicle crashes (12,201) and 60% of all multiple vehicle crashes (18,266) in Pennsylvania.*
- ▶ *Young drivers (ages 16-21) are the least experienced drivers. It has been stated nationally that 85-90% of all traffic crashes involve some sort of driver error that contributes to the crash. Therefore, as drivers, we can greatly impact traffic safety by driving smart and driving defensively.*

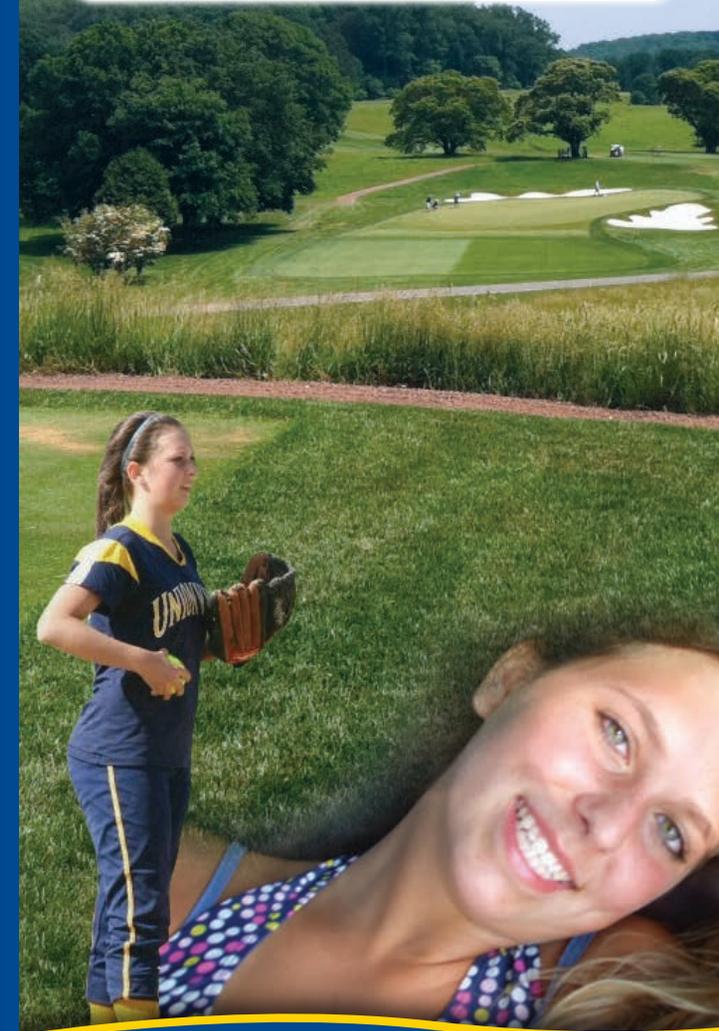

Raising money to help fund teenage driving education and the placement of driving simulators in High Schools. All donations, no matter how large or small...are graciously appreciated.

*A student at Unionville High School applies what he has learned using the Abby Miller Foundation driving simulator.*

*Students at Garnet Valley High School learn to drive using an Abby Miller Foundation driving simulator.*

## June 2, 2014

# Abigale Miller

April 8, 1991 - June 13, 2008

Abby Miller had everything that a 17 year old girl could possibly hope to possess. She was beautiful, intelligent, witty and charming, athletic, and loved by her family and friends.

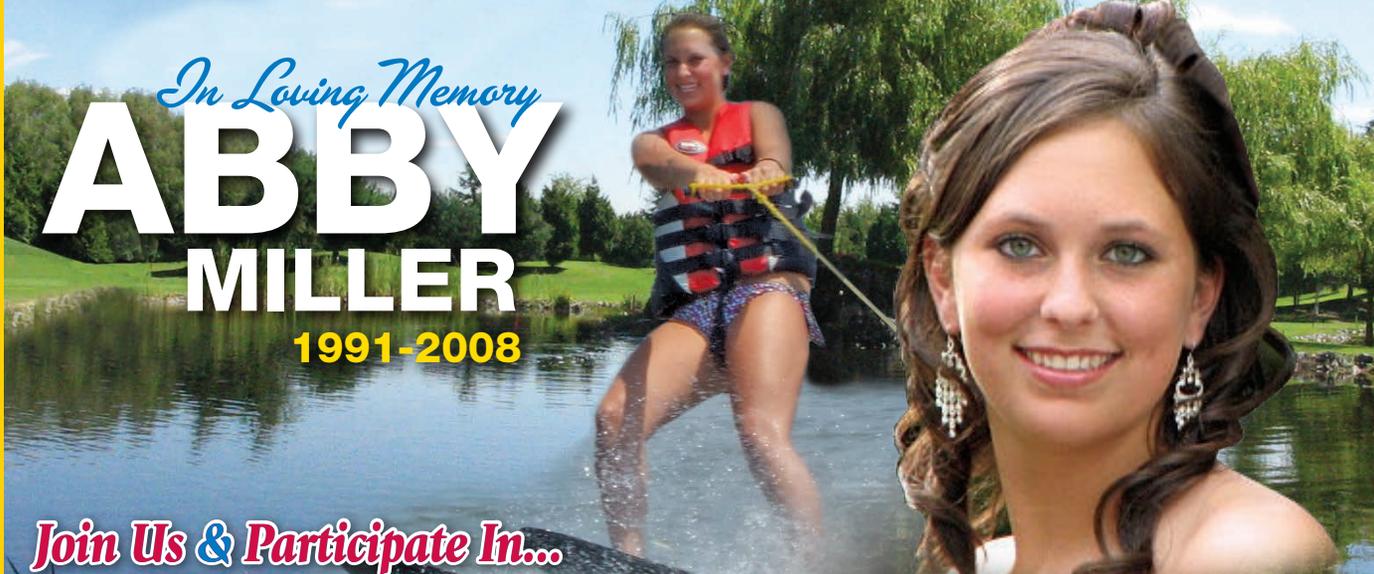

Above all of these, her greatest possession was her ability to demonstrate compassion, caring, and kindness for those with whom she came in contact.

Abby was the girl who stood up for you on the school bus when you could not stand up for yourself. She was the kind stranger who took you by the hand and introduced you to your classmates when you were the new student. She encouraged you to pursue your hopes and dreams. Her eyes, and smile, and infectious giggle helped to brighten your day.

But what Abby did not possess, was experience behind the wheel of a car. Late one evening, a deer, standing in the middle of a dark highway caused her to swerve and lose control of her vehicle, and subsequently she lost her life.

Our goal in raising funds for the Abigale Miller Foundation is to enhance teen-driving education programs. It is our vision that high schools around the country will be able to instruct new drivers, through the use of driving simulators, on how to avoid and properly react to the many hazards that we encounter daily on the nation's roads and highways.

**The Abby Miller's "Safe at Home" Memorial Golf Tournament aims to save the lives of teens by improving driver's education. Your participation and donations can help make this dream a reality.**

**Join Us & Participate In...**

## The Abby Miller Foundation Summer Benefit Fundraisers!

**Thank You  
For Making A  
Difference!**

*In 2012, the Abby Miller Foundation purchased and installed another six (6) new simulators for the Driver's Education Classroom at Unionville High School.*

*In 2013, the Abby Miller Foundation donated three (3) driving simulators to Garnet Valley High School.*

*Proceeds raised from the Softball & Golf Tournaments will go towards purchasing driving simulators, promoting Driver's Education at other local schools and the Abby Miller Scholarship!*

It is amazing what **OUR** efforts have been able to achieve in just a few short years. The true reality is that with your hard work and generosity, we have been able to give **OUR** children their right to become educated drivers so they can return **"Safe at Home"** every night.

**Saturday, May 31st**

Softball Tournament - Unionville High School

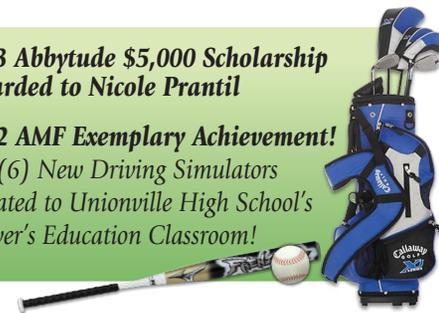

**Monday, June 2nd**

Golf Tournament - Bidermann Golf Course  
One of the nicest courses on the East coast!

*The Abby Miller Foundation also grants scholarships to students that show kindness to others, promise and "Abbytude" towards others students, their school and their community.*

**2013 Abbytude \$5,000 Scholarship Awarded to Nicole Prantil**

**2012 AMF Exemplary Achievement!**  
Six (6) New Driving Simulators donated to Unionville High School's Driver's Education Classroom!
